

# Handpicked Accountants

---

## **Banks Cooper Associates Recognised One of the UK's Top Firms**

Handpicked Accountants is a service designed to connect business owners and company directors with only the very best accountancy firms – and Banks Cooper Associates have just been awarded inclusion.

Handpicked Accountants features an online searchable database and personalised accountant matching service, however what makes Handpicked Accountants stand out from the crowd is that each of the firms that is featured on Handpicked Accountants is only included after they have passed a rigorous vetting procedure. This is to ensure that anyone using Handpicked Accountants to find their perfect accountancy firm will be able to rest assured that whomever they choose they will be working with a trustworthy and reliable firm that they can trust to provide only the very highest levels of service.

Recently launched by Begbies Traynor Group, Handpicked Accountants was created to take the lottery out of business owners finding an accountant they can trust. Rather than having to rely upon a quick internet search or simply making a choice based on location, people can now go straight to Handpicked Accountants.

David Tattersall, Head of Client Relations at Handpicked Accountants, said, “We are delighted to be including Banks Cooper Associates in Handpicked Accountants. Their business services including forecasting, tax planning, compliance and outsourced management accounting, financial management and corporate finance are of an exceptionally high level, putting the individual needs of their clients at the centre of everything they do.”

Simon Banks-Cooper, Partner at Banks Cooper Associates, commented, “With only 1,000 of the 320,000 accountancy firms in the UK having been awarded inclusion in Handpicked Accountants to date we feel extremely honoured to be one of them. Our ethos is to provide practical financial advice to our clients to allow their businesses to grow, often on an international scale. The wide realm of expertise held by our team means that we are perfectly positioned to advise clients in all industries from our offices in London, Hull and Leeds.”
