Further Information

BCA are themselves a veteran owned business, Bronze Award ERS holder, and sponsors to the Heropreneurs Business Awards Dinner. We have been supporting clients for over 20 years, with a primary focus on helping to grow businesses by giving them access to all the facets of a fully staffed finance department on an outsourced basis. We work with clients to establish sound financial controls, reporting processes, and information flows for planning, which together provide the foundations for cash generation, profitability and sustainable growth.

The firm has supported many developing SME businesses, as well as public companies, with a range of services, including payroll, accounting, VAT, tax, and statutory reporting. This also extends to providing transactional support for debt and/or equity fundraising, business acquisitions and disposals. We always maintain a focus on management accounting, information for planning, control, cash generation, and profit maximisation.

This seminar will give you an opportunity to gain a better understanding of what business support is available, how it might help your business through the COVID crisis, and how to access it.

We hope you will be able to attend what promises to be a highly useful and informative event for these uncertain times.

All the best,

The Heropreneurs Team
